CITY COUNCIL.

The regular weekly meeting of the City Council was held last evening. Present: Mayor Fell and all the councillors excepting Coun. Grant.

PRIVILEGE.

Coun. Lipsett, on a question of privilege, asked if the C. P. R. had authority of the Mayor to advertise a "civic" excursion.

Mayor Fell—You had better ask the company what their authority is. I gave no authority to the Co. to advertise in that way.

COMMUNICATIONS.

From Chas. R. Graves, applying for the sanction of the council for the use of his roofing material in the fire limits of the city. Received and filed.

From J. K. Wilson, calling attention to a former offer of his of $500 for grading of Church Way, and asking what the council intend doing in respect to the matter. Laid on the table.

From C. Hayward, calling attention to the approaches to Rock Bay school and asking that sidewalks and foot paths be erected before the wet weather steps in. Referred to Street Committee.

From five property owners on Ellis street, asking that it be brushed and grubbed this fall and made passable. Referred to the Street Committee to report.

TENDERS.

Tenders for grading, cambering and gravelling Rock Bay avenue and Bellot street were opened as follows: James Baker, $1,371 for Rock Bay avenue; Jas. Baker, $349, for Bellot street. Both contracts were awarded to Mr. Baker.

THE DEFERRED BALLOT.

The matter of the deferred vote on the appointment of Street Overseer, was the next business, when Coun. Lipsett asked if His Worship intended to give the casting vote?

His Worship—I do not.

Coun. Smith—Did your worship get the opinion of another lawyer as instructed by the Council last meeting?

His Worship—I asked the opinion of Mr. A. N. Richards, Q. C., and now call upon the clerk to read it.

The Clerk then read the following opinion:

"I am of the opinion that the municipal councillors cannot vote by ballot in the appointment of officers and that any such voting does not create an equality of votes so as to allow the mayor to vote under section 14 of the Act of 1886, chap. 15."—A. N. RICHARDS.

Coun. Lipsett said so long as we have a City Barrister we should be prepared to follow his opinion. The City Barrister had said that you (the Mayor) can vote, and you should be required to do so. I move that Your Worship vacate the chair and the Council proceed to elect a chairman for the purpose of getting a vote.

His Worship—I rule the motion out of order.

Coun. Barnard said the opinion of Mr. Richards was not pertinent to the case. It was the duty of the presiding officer to give the casting vote. The question was not whether the Council had the right to appoint officers by ballot; eight councillors had determined to appoint a street-overseer and their wishes were being frustrated by the Mayor. He agreed with Coun. Lipsett, that if the Mayor did not give the casting vote he should vacate the chair, and he would second the motion.

Coun. Humber was disposed to support the motion unless the Mayor was prepared to give a reason for his conduct.

His Worship said his reason was that the Council had no right to appoint officers by a secret ballot, and he would not be a party to an illegal act. He objected also to the appointment of additional officers for economical reasons. He had no power to give the casting vote; the Councillors had created the dead-lock, and if they wished to get out of it they must continue balloting until a selection is made. The proper course now to take is to advertise afresh for new applications, stating the amount of salary it was proposed to pay, and from those received make the selection.

Coun. Smith considered a mistake had been made in the manner in which tenders had been called. He would move that a new advertisement be published, but would like to know first if the decision of the chair, that Coun. Lipsett's motion was out of order, was going to be sustained.

Coun. Higgins did not agree with the opinion of Mr. Richards. He contended that the Council had no power to vote openly, and pointed out that the Mayor and Councillors were elected by ballot and in the event of an equality of votes the returning officer was required to give the casting vote. His Worship had illegally shirked the casting vote on this question. He quoted the act and rules of order, and was proceeding at length when—

Coun. Smith claimed the floor, having only given way temporarily. He proceeded to speak, and

Coun. Higgins continued to debate the subject, reading from the statute, and reminding Coun. Smith that he was not thus to be put down. Finally—

Coun. Smith moved that a new advertisement be inserted in the papers for a street overseer.

Coun. Lipsett appealed from the decision of the chair in ruling his motion, calling upon the Mayor to vacate—out of order.

Coun. Barnard seconded the appeal, and again spoke at length. He pointed out that if the business of the city was to go on, the casting vote must at times be given. The reason for refusing to give it evidently was that the Mayor was afraid to offend one side or the other.

Coun. Robertson failed to discover His Worship's reason for refusing to vote. Many clear headed men had sat in the chair, and this question as presented by the Mayor had never come up before. If it was wrong to give the casting vote the lawyers who had been mayors would surely have known it. No doubt the Mayor had consulted the man whose views suited him ——

His Worship—Coun. Robertson, I not propose to be insulted, or to allow you to make such insinuations.

Coun. Robertson—I do not care whether you take it as an insult or not. Out of pure malicious you have kept the council here night after night, and I propose to fight it out on this line as long as you like.

On the appeal from the Mayor's ruling the vote stood four for and four against, and the chair's decision was sustained by the casting vote of the Mayor.

Coun. Vigelius moved that the question be deferred one week, when His Worship would be far away. On being put the motion was lost by 5 to 3.

A motion to adjourn was moved and seconded and then withdrawn. A proposal to set it out until the steamer bearing His Worship away in the east would depart was made and Coun. Higgins showed a willingness to act upon it, but the majority were too impatient to play a "waiting" game of that kind. Confusion became worse confounded, and amid all the din His Worship smiled down blandly and benignantly from his elevated seat upon the perturbed councillors. At last all the councillors excepting one or two had vacated their chairs and retired, and the stormy meeting thus became dissolved for want of a quorum.

THE Y. M. C. A.

The New Rooms on Broad Street—Commodious and Convenient.

The new rooms specially arranged for the Y. M. C. A. in the Spencer block are commodious and convenient. The fact that an association only a few years old has grown to such proportions, numerically and financially, as to require such

CAPACIOUS QUARTERS,

thus elaborately gotten up, and at the same time is prepared to meet the heavy expense entailed, is a satisfactory proof were such wanting, that it is filling "a long felt want" in this community, and completely vindicates the wisdom of its founders. Established scarcely two years ago, the association now has 215 members, which number will certainly be increased to 300 or 350 in the next month or two, as the Secretary has assurances that many are anxious to connect themselves with the association as soon as the new rooms are occupied. The basis of membership is so broad and liberal, and the advantages to be derived are so

OBVIOUSLY MATERIAL AND SOCIAL,

as distinguished from the ultimate moral and religious benefits undoubtedly aimed at—which to many well-meaning young fellows is an unaccountable bugbear that it will be somewhat surprising if all the young men in the city are not found enrolled on its books before the end of the year. If is altogether an erroneous impression, and a common one too, that the neophyte must bewail the past in sackcloth and ashes, or wear an unnaturally sanctimonious visage, or become penitent, or join the church, or do anything so dreadful even as "turn over a new leaf." He will not be solicited to be more pious than formerly, and may remain a member of the association forever without the slightest fear that any effort will be made to drive "religion" into him. Religious instruction, as a matter of course is provided at stated times for those who desire it, but all the members do not necessarily participate therein.

THE GRAND OBJECT AIMED AT,

in the first place, is to provide a resort for young men to spend their evenings, surrounded by the comforts, conveniences and pleasures of a home, and at a merely nominal cost. That is the primary object, and to attain it for the steadily increasing membership, it was found imperative that new rooms, specially adapted to the purpose, should be procured. Advantage was taken of the "Arcade" by Mr. D. Spencer, and a mutually satisfactory arrangement was effected whereby one-half of the second story of that large building should be designed and fitished for the use of the association. The apartments are reached from the Broad street entrance by a wide flight of stairs. The various rooms have a floor area of 125x30 feet, conveniently arranged. The office and library, and the

SPACIOUS READING ROOM

look out on Broad street. The library contains five hundred volumes and the reading room over seventy leading papers and magazines, and to both accessions are constantly being made. Immediately behind these are the bath rooms (three) and lavatory, supplied with hot and cold water. The gymnasium adjoining is a lofty and commodious apartment, lighted from both sides. It will be provided with all the muscle-developing appliances, including boxing gloves, chest exercisers and expanders, bars, flying rings, clubs, bells, &c., &c., of the most approved and scientific character. A complete list would indicate that the members are expected to

DEVELOP THEIR MUSCLES

concurrently with the training of their intellect, on the theory we suppose that a sound mind in a sound body is the only safe defence against the continual onslaughts of the devil and occasional encounters with his representatives in the flesh. This room will be open for athletic exercises four nights in the week, the other two being reserved for lectures and entertainments. Arrangements have already been made for one of each every fortnight, the first, a conversazione by the ladies of the Reformed Episcopal Church taking place on the second Tuesday in November. In the rear of the gymnasium is a room for the exclusive use of

THE BOYS BRANCH,

the members of which are from 10 to 16 years of age. The work in connection with this branch of the association has been fruitful with good results, and has received the highest commendation from Mr. H. J. McCoy, general secretary of San Francisco. Speaking at the Astoria convention, Mr. McCoy said the work done in the boys' branch at Victoria was the best on the continent, outside of New York city. A members' parlor, handsomely furnished, completes the capacious *suite* of rooms. The whole will be

HEATED BY STEAM,

generated in the basement, and will be illuminated by the new electric light. These premises are now occupied by the association, and the grand opening concert, when the furniture and fixtures will all be in place, will be held on Wednesday night next, when the formal dedication will at the same time be held. For the sum of $5 per month—the price of 40 cigars—any young man can become a member and secure all the conveniences of the institution. For that trifling expenditure he gets the use of the baths, gymnasium, library, reading room, is admitted to the lecture course and socials, and generally speaking has

THE RUN OF THE ROOMS.

He moves in good society, has the counsel and sympathy of companions of his own class, and must feel, if he is not wholly unimpressionable, that the influences by which he is surrounded are of the right kind, and can only tend to his good. The rooms, we may add, are open every day from 9 a. m. to 10 p. m., closing on Sundays at 6 p. m., and are presided over by

MR. J. J. DALEY, THE GENERAL SECRETARY,

with unremitting assiduity and a suavity of manner that makes the stranger feel that he has been there often before, although it is the first time he was ever inside the doors. On purely mercenary grounds, then, and for the actual "worldly" advantages it affords, we would advise every young man to become a member of the association.

LETTERS TO THE EDITOR.

NICOLA BRIDGE CONTROVERSY.

TO THE EDITOR OF THE TIMES:

SIR,—In your issue of the 1st inst., I noticed a letter, signed "Fair Play," in which the writer claims to call "Justitia" to account, and in which he has the cheek to mention my name in such an abusive and insulting manner, that I feel compelled to pick up the gauntlet and show him that, although a foreigner by birth, I am a British subject at heart, and am well able to cope with such a ill-bred fellow; as no man, who calls himself a gentleman, would lower himself to such a depth of degradation, as to meet a fair argument in the way "Fair Play" has done. He accuses me of being too cowardly to attack men, who are not in public service; he simply states by this that I have too much good sense to go rowing and fighting around the country, which he has tried his very best to get me to do. But I wish to remind him, and his followers, of two facts, of which they don't seem to be aware of namely: That we are living in a law-abiding country; that there is a law in this country which punishes a man very severely who tries to provoke another to a fight; and I hereby caution him that this law will be put in force against him and his adherents—the next time that they give vent to any more of their impudence. Evidently "Fair play" had frequent occasions to visit the slums of Chicago during his recent stay there as his whole letter indicates that as far as style of language is concerned. No doubt he got intimately acquainted with some of the leading socialists and was initiated into the secrets of that highly respectable (?) order, as all his life in this community has given ample proof that he had a very strong tendency that way. Well this is only as much as could be expected from a man who seems to have made it the soul of his ambition to cause mischief and trouble amongst his fellow citizens; a man who has never given fair play to any one, not even to a child. If "Fair play" will take the trouble and look into Webster's dictionary he will find there the meaning of the word socialist; and further, that this is the only title which his past life entitles him to. He further states that I had been only a deckhand on the steamer Lady Dufferin. "Fair play" is well aware that he is stating a wilfull falsehood, as the British Columbia directory of 1883, page 297, will easily give proof thereof. If Fair play had only one hundredth part of the brains of the great German statesman whose name he mentioned in this letter, he then would have had just enough to keep his fingers out of this pie. Fair Play will have to go a long way below cost to regain the esteem which he once, and only partly at that, possessed in this community. As he took the liberty of offering me advice, I wish to return the compliment and ask him to come forward and help to squash the illegal liquor traffic and gambling, which has been going on in this community for some months, and show by his actions, that he really means fairplay. There is no doubt, but what Fair Play feels rather quarrelsome-like just now, as he, old as he is, appears to have to go through a new school, well and ably managed by two first-class teachers. But now, Mr. Editor, laying personalities aside I wish to prove to the general public that the statements which Fair Play made in regard to the Nicola bridge are utterly false; as facts and figures will speak for themselves. The bridge, as the original plans called for, required 17,800 feet of sized timber; and according to the estimate of a well informed blacksmith the iron work would have amounted to the sum of about $200. The bridge, as it now stands, uses 8,250 feet of sized timber, and less than half of the iron. Fair Play, ask me, why I didn't mention, that the bridge is now build upon high and solid banks. Evidently, Fair Play is not gifted with a large amount of common sense, or else he would know, that, by building a bridge across the narrowest and naturally the most rapid and dangerous part of a river, such a structure is apt to be washed away by the first high water, which is very likely to be the case in this instance, as the bridge is according to good, reliable authority, built below high water mark. Whereas the original position, although the banks are lower, is so much wider, it counteracts all the influence the water would have upon it. Fair Play seems to lay great stress on what he calls errors. No. 1 error is only a matter of a few days, and has no connection with the question at issue. No. 2 error is false. The gentleman who put in the $1500 tender, and for which tender Fair Play stated that I claimed the estimations thereof, is well able to look after his own business, of which part Fair Play was very forcibly made aware of at the recent school trustee election. Concluding my reply to Fair Play's letter, I wish to say this: If the Local government cannot find any better man to take up their cause, than such individuals as Fair Play, a man who is low enough to mention another's name in a newspaper, but too cowardly to put his own under his rubbish, then I say again, it is about time that a change should take place. In as far as Mr. Bard's communication is concerned, it is so ridicious that I don't wish to take up any space in your valuable paper for a reply, as my above mentioned figures show to any common sense man the absurdity of it. *Justitia fiat Injustitia pereat.*

AN EFFECTIVE BURGLAR TRAP.

FORT KEOGH, Mont., Oct. 5.—A Butte miner, named W. P. Emery, fixed up a burglar trap in his cabin Saturday and went off prospecting. He securely locked the cabin, but so arranged the interior that an entrance would disturb a combination, setting off a heavy charge of dynamite. When he returned from the mountains he found that a terrible explosion had taken place. The burglar had entered through a window. The floor was torn up and splintered, and the cabin generally wrecked. The interior was spattered with blood. The thief was found near by in a frightful condition. His skull was fractured, the top of his head being nearly blown off. He was hardly conscious and gave the name of Irish. He cannot survive.

The governor of Montana, in his annual report, just forwarded to the secretary of the interior, says the population of that territory is now 120,000. The population by the census of 1880 was 39,159.

The temperature in London on the 6th inst., registered 80° in the shade, the highest in forty-six years in October. The theatres in Paris are poorly attended on account of the excessive heat.

AMERICAN HAPPENINGS.

A FATAL COLLISION.

CLEVELAND, Oct. 14.—A report was received here this morning by A. M. Bradley & Co., owners of propeller Silas Chamberlin stating that the vessel was sunk in a collision with the New York Central line about 6 miles above Shebaygan, Mis., last night and four of the deck hands and the second engineer whose names are unknown were lost.

THE KNIGHTS OF LABOR.

RICHMOND, Oct. 14.—The executive board of the K. of L. sent $5,000 cash to the locked-out cotton workers in Augusta, Ga., to the tanners, Salem, and Peabody, Mass., and the plumbers of New York city. More will be sent when needed.

HUNG AND SHOT.

MANKATO, Ills., Oct. 14.—This morning about 200 disguised men overpowered the sheriff and broke into the jail and took Henry Wilde, the wife murderer, out and hung him to a tree near the jail. After hanging him they shot him eleven times in order to make sure work of their job.

ANOTHER STORM IN THE SOUTH.

NEW ORLEANS, Oct. 14.—A dispatch to the *Times-Democrat* received early this morning from Orange, Texas, says that the storm did great damage at Sabine Pass. The Porter hotel, which contained a large number of guests was swept away; a boat, containing a number of people, overturned in the bar and all on board were drowned. Eight lives were known to be lost. It is feared the worst has not been learned. A schooner was picked up there in the bay in an exhausted condition. A relief boat has gone there with provisions and clothing for the destitute.

ATTEMPTED SUICIDE.

SAN FRANCISCO, Oct. 14.—Mrs. Theresa Kerrigan, who by her troublesome behavior during the course of her trial on the charge of assault with intent to murder Mrs. Lathrop, has caused several postponements of the case, capped the climax by becoming unconscious in the court room to-day. It was found she was suffering from the effects of a heavy dose of opium. The case was postponed and the woman removed to the receiving hospital, where, by the prompt administration of emetics, her life was saved.

MONEY OR YOUR LIFE.

ST. PAUL, Oct. 14.—A despatch from Kashland, Pa., says about 10 o'clock this morning two unknown men entered Nillworth's bank and at the muzzle of revolvers compelled President Nillworth to give them the contents of the safe amounting to $4,000. The robbers escaped. An armed posse is in hot pursuit.

DESTRUCTIVE HAIN STORM.

CHICAGO, Oct. 14.—A heavy wind and rain storm passed over the city this morning, wrecking numerous signs, demolishing two real estate buildings and doing great damage in Douglas, Duffield and Humboldt Parks.

THE LATE CHIEF JUSTICE.

CINCINNATI, Oct. 14.—The remains of Chief Justice Chase were interred in Woodlawn cemetery this morning with very impressive services.

POLITICAL.

The Movements of our Prominent Public Men—Nominations and Elections.

On the evening of last Friday the Conservatives held a public meeting in Ottawa, at which were present the premier, several of his cabinet and a great many prominent ministerialists. The meeting was held under the auspices of the Workingmen's Liberal Association. Sir John went over the ground traversed by him in this city. Mr. Meredith, the leader of the opposition in the Local Legislature, followed. Sir Hector Langevin and Hon. John Costigan also spoke. Each of the speakers were bitter in their denunciations of the Liberals.

The Hon. Messrs. Thompson, White and Foster are hippodroming it in New Brunswick. Meetings are being held, at which the general policy of the government is being discussed.

Mr. Alfred Boultbee, the notorious, has been nominated by the "boodle" wing of the Conservatives, in East York, in opposition to the Hon. Alex. Mackenzie, who carries with him the sympathy of a large portion of the respectable Conservatives and everyone of the independent press. Many condemn the action of the Conservatives as unwise, for no man in Canada to-day is so highly esteemed by all classes as is the ex-premier, who is in declining health, but of as bright intellect as ever.

To-day the local elections are being held in Quebec. The contest is expected to be a keen, close one, the chances favoring the government.

MARINE NOTES.

SAN FRANCISCO, Oct. 11.—At present there are 109 vessels in port, 50 chartered and 51 disengaged. The chartered tonnage aggregates 85,520 tons, against 91,340 at this time last year. The disengaged tonnage is 67,279 tons, against 83,163 at this time a year ago. Nearly all the chartered vessels are engaged for the grain carrying trade. During two days last week over 40,000 tons of coal arrived in this port; said to be the largest amount that ever arrived here in the length of time.

The bark Loyola, lumber laden for Coquimbo, Chili, went to sea yesterday.

The Swedish bark Drotling Sofia, Victoria to Adelaide, arrived October 4.

The British bark Viola, London to Victoria, sailed October 5.

The Barbara Boscowitz sailed last evening for Port Simpson and way ports. She took up a large number of passengers and considerable freight.

The bark Don Nicholas was towed to Departure Bay to-day by the Pilot, and will load coal for San Francisco.

The Mexico was off the outer wharf this morning, and after procuring a pilot proceeded to Port Moody for a cargo of coal oil for San Francisco.

Capt. T. Harman and Mr. George Harman returned yesterday from Port Townsend, after repairing two leaks in the Chilian bark Bella Vista, which goes to Port Gamble to load lumber for Valparaiso.

The machinery of the steamship Empire is undergoing repairs in San Francisco. She will sail on Saturday for Nanaimo.

The Amelia will make two trips per week in future.

SENTENCE OF DEATH

Passed upon the Murderers of Dillman—Three to Hang.

LYTTON, Oct. 14.—At 9 o'clock last night the jury found Derose, Connolly and Maxwell guilty of the murder of a white man last July at Hautier's ranche. The murdered man's name was unknown but he is supposed to be one Wm. Dillman, formally of Nova Scotia and laterly of Minneapolis. The deceased seems to have been a quiet inoffensive man, having left a wife and seven children to better his and their prospects here. The murder was one of unusual barbarity. It was shown that Dillman had walked from the Selkirks down the track in Derose's company part of the way, and that Derose knew he had a few dollars with him. The murderers were supposed to be tramps, traveling by the night trains from Kamloops in front of the baggage car. They all happened to meet at Spence's Bridge, and taking the train there were turned off at Lytton, on the 11th of July. At 4:30 a. m., going down the track, they turned into a ranch for fruit. Dillman was sleeping in the untenanted cabin, with brush for a pillow. His body was found next day outside of the cabin, with traces showing it had been dragged out. A pool of blood lay beside the pillow and the floor, and sides of the cabin were bespattered with blood. The skull of the deceased was literally smashed to atoms. One witness described it as like broken shells. An empty purse, supposed to belong to him, were found in the underbrush on the ranch, and a thick club with blood and matted hair on it, similar to Djillman's, was also found in the brush by Indians employed by Supt. Roycraft to search the place. The accused were seen by a C. P. R. trackman at and near the ranch, which is a small fruit patch, about 5:30 a. m. of the 11th July, or an hour after they had been turned off the train. After the murder they separated and were arrested at different places down the road. The stains on their clothes being submitted to Dr. Prager for examination were proved to be blood stains. The doctor's evidence was very interesting. Derose was very abusive in court. Connolly was heard to say before the trial: "It is rough on Maxwell; he is innocent anyway. I will never have a better chance for preparation and I would like to see a priest. While all the prisoners were in jail waiting trial, Maxwell was overheard saying to Connally: "Is there evidence sufficient to convict us?" Connolly said nothing, but Derose replied: "I think there is, but I will fight it right through, and if it comes to the worst I wont squeal." There was strong corroborative evidence implicating the prisoners. Derose is from Montreal, Maxwell is a deserter from the mounted police, two of whom were in court awaiting to take him if acquitted for murder. The Judge, Mr. Justice Walkem, complimented the police authorities for their management of the case. The trial lasted two days. After the verdict he addressed the prisoners feelingly and sentenced them to death on the 24th of Nov. next. Ninety jurors were summoned and eighty-nine were in attendance and punctual. The court opened at 9 a. m. and sat till 9 p. m.

LYTTON ASSIZE.

LYTTON, Oct. 13.—Derose, Connolly and Maxwell were sentenced to death on the 24th November for the murder of Dillman at Hautier's ranche, Lytton, on 11th July.

POLICE COURT.

(Before Edwin Johnson, Esq., S. M.)

Alfred S. Matteson, mate, was charged with assaulting Edward Clarke, master of the bark Aberlemno, on the 27th of July, at sea from Liverpool to Victoria, and with disobeying the commands of the captain. Both cases were adjourned until Tuesday next.

AND YET THEY COME.

New York is at present crowded with London "society." Miss Violet Cameron and her live Lord Lonsdale were the heroes of the hour for a few days. They dropped out of sight on the arrival of Miss Fortescue, rendered famous in connection with the Lord Garmoyle episode. The Cameron-Lonsdale couple at latest accounts were again the talk of the town, having made their debut in the New York police court. A correspondent writing to THE TIMES states that Miss Fortescue will remain in Gotham for a season twenty-six weeks, and if possible she will bring out a new comedy that Gilbert is writing, the American right of which she has purchased. It is not yet known if the New York show will make a tour of the continent, if so they may reach Victoria.

THE scheme of a railway from Winnipeg to Hudson's bay is actually taking shape and there is great excitement at Winnipeg in consequence. Success in "floating" the bonds in England is reported, and ground was broken at Winnipeg last Thursday. The first installment of rails is already due at Montreal. It is reported that arrangements have been made with Milburn & Co., of London and Newcastle-on-Tyne, one of the largest shipping firms in England, for steamers to ply between England and Hudson's bay. The firm has thirty-eight iron steamships, many of them specially adapted to navigating waters similar to those of Hudson's bay and straits. This company does Baltic and St. Petersburg trade. It is asserted that trains will be run from Winnipeg to Hudson's bay within two years. The contractors are engaging at Winnipeg all the men and teams they can.

Mrs. J. D. Carscadon, of Winnipeg, is a guest at the Oriental.

There broke a further riot between Hindoos and Mahommedans at Delhi. It was necessary to call out troops to suppress the disturbances.

It is officially announced that the sentence of the condemned African rebels have been commuted to imprisonment for life in the military prison in Africa. The government proposes to grant full pay and pensions to the widows of Velarde and Mirasol, the officers who were killed in the late rebellion.

Five car loads of poultry, including chickens, ducks and turkeys, the whole consignment numbering about 22,000 fowl, passed through St. Thomas a few days ago en route to Peoria, N. Y., to be fattened for the New York markets.

GASSELL'S SUGAR CURED HAMS are now ready at his store, corner Cormorant and Douglas streets.

MUST CRINGE OR FIGHT.

The determined words in which Premier TISZA, speaking in the name not only of the Hungarian Cabinet, but of the HAPSBURG Foreign Minister, KALNOKY, sanctioned the resolve of the Magyars not to permit the stifling of Bulgaria by Russia, has had an invigorating effect on the people of the principality. Every important exaction included in the arrogant ultimatum delivered by KAULBARS has been repelled by the provisional government, and the envoy himself has been treated with merited contumely, having had his placards torn down before his eyes, and having been hissed into silence when he essayed to bully a public meeting. KAULBARS has been bidden to inform his master that the Bulgarian Regents will comply with none of his demands that in any wise run counter to their national Constitution, and of such contradiction they claim the sole right to judge. They will let justice take its course against the accomplices in the abduction conspiracy, and they will not postpone the meeting of the Constitutional Assembly for which the elections will presently take place. It is possible, indeed, that in the intervening weeks some sporadic attempts at insurrection may be brought about by Muscovite intrigue and money, but there is proof that, as a whole, the Bulgarian army is fiercely anti-Russian, and unless promptly supported by an advance of the Czar's army from Bessarabia, the plots of KAULBARS at Sophia and Tirnova are likely to be savagely stamped out.

A forward movement of the Russian troops, which for some time have been massed in Bessarabia, is not, in view of recent changes in the political situation, by any means the easy thing it seemed a month ago. The soldiers of the Czar would first have to cross the Danube, and they would then have a long march before them through the Dobrudsha, which is Roumanian territory. A hint from Vienna to King CHARLES, whose subjects were almost as much exasperated as the Bulgarians themselves by Prince ALEXANDER's abduction, would throw in the Russian path a Roumelian force strong enough to delay the invaders until the Austrians and the Turks could come up. That an Austrian army would be hurried to the front is no longer doubtful since Herr TISZA's announcement that the HAPSBURGH Government would not permit the Czar to occupy Bulgaria. That a like promptitude would be displayed by the Turkish soldiers collected on the Southern border of Eastern Roumelia is also certain, for the Pashas now in power know well, whatever bribes they may of late have taken from Russia, that it would cost them their lives to be suspected by the Moslem population of subornation by the Czar.

A single stern word from Hungary has sufficed to curb the Russian insolence, and to force ALEXANDER III. to make up his mind betimes whether to back down or fight. Should the Czar now, after all his bluster and affected defiance of treaties and of public opinion, cringe to Austria, submit to the complete miscarriage of his machinations, and recall his disconcerted envoy from Sophia, he would make himself an object of derision to Europe and of loathing to his subjects. His life would be no safer than was that of his predecessors, PETER III. and PAUL I., from the moment that they lowered the nation's self-respect, and he would find himself begrit with deadly enemies, recruited no longer from obscure Nihilists, alone, but from the inmost circle of the court. The moujike, even, would pray Heaven to translate their "Little Father." That upon this mortal basis of blind awe and reverence rests the whole fabric of their power, is a truth of which the ROMANOFFS are keenly sensible, and therefore they have often felt constrained to fight against imposing financial and military odds. It is for these reasons that we think the present Czar will draw the sword sooner than bear humiliation, which, for a member of his dynasty, has appalling terrors. But war itself, apparently, would only be a choice of evils. Nothing could be less propitious to Russia than the present situation. With the exception of a few hundred Montenegrins the Czar could count on no allies in Europe, for in the face of a watchful Germany France would not dare to stir. He would be sorely overmatched by the powers arrayed against him, if the clues to the future are to be sought in the past. No student of the late war will deny that the aid of the Roumanians was indispensable to the capture of Plevna, which is tantamount to saying that in the Balkan region the Turks, single-handed, could almost hold their own. In a contest, however, under existing conditions the Roumanians, Bulgarians, and Servians would be the enemies, not the coadjutors, of Russia, and behind them would be ranged not Turkey alone, but Austro-Hungary, able to place half a million soldiers on the Danube. It is also probable that in a war, which could not, like that of 1877, be described as a combat between Christian and Moslem, but would be in truth a struggle for South Slav independence against Russian despotism, the Czar's antagonists would have the moral, the financial, the navy, and to some extent the military weight of the British nation on their side, and before such odds the Cossack would have to go down.

COWICHAN EXHIBITION.

Annual Show at Maple Bay a Characteristic Success.

List of Prizes Awarded in all the Departments.

The annual exhibition of the Cowichan, Salt Spring and Chemainus Society was held on Wednesday at Maple Bay. The Amelia from this city carried a large number of visitors, attracted more perhaps by the beauty and pleasures of the trip than by what they expected to see agriculturally when they got there. The competition was about as extensive as last year, but a decided improvement in the quality of the exhibits in the several departments was noticeable. The fruits and vegetables were not inferior to anything to be seen in our great show in Victoria the other day, while the display of fancy needle work, limited although it was in extent, contained many evidences of the superior taste and refinement of the ladies of the district. A dispatch from St. Petersburg says: The Czar while discussing recently the Bulgarian crisis, said: "If the Bulgarian question can be settled peacefully, well and good, but I will not go to war for the sake of disorderly Bulgarians."

ACCORDING to the *Journal of Commerce*, the yield of apples in Canada this year is large, while the European crop is light. Thus, if good Canadian fruit can be sent forward early, foreign demand is likely to be larger. Too much stress cannot be laid on the absolute necessity of maintaining the reputation of Canadian fruit, if this promising trade is to continue to expand. In this, as in other departments of trade, honesty has proven time and again to be the best policy. The fruit should be evenly sorted and uniform in size and quality throughout, as fine at the bottom and the middle as at the top. Too large a part of the receipts of late seasons have been what is called by the trade "stuffed.", the middle of the barrels containing inferior, trashy fruits, topped off with a few layers of good apples. Buyers are not slow to find this out and the poor apples bring no more than they are worth. The stock should be closely graded, the primes and seconds being packed separately and plainly marked. No barrels should contain more than one variety, with the kind and grade neatly stencilled on the head. On opening the barrel, the top layer should show a fair average of the quality of the entire contents. Brands thus packed will very soon acquire a reputation that will amply repay packers for their care and honesty. So far, only fall fruit has been forwarded, and returns were not satisfactory, the shipments reaching Europe in poor condition.

OF LORD RANDOLPH CHURCHILL'S recent speeches a correspondent writes that one of these is regarded as being a definite burial of King Jingo. Only old-fashioned members of the Tory party find ground for complaint in this. As regards domestic affairs the charge of the Liberal press that he has stolen the whole Liberal suit of clothes is by no means without foundation. Several points, such as the closure of a debate by the majority, which he denounced in opposition, he now introduces as a Government proposal; the three acres and a cow and the sale of glebe lands, but in the direction of free schools, are, of course, familiar planks in the Liberal platform. On several of these, however, it is fair to add that Lord RANDOLPH CHURCHILL has held Liberal, even Radical convictions probably for some time, although he has often expressed Tory ones for tactical purposes. The speech as a whole has been received by the Tory press with immense satisfaction; Lord RANDOLPH CHURCHILL is covered with compliments by every Conservative paper in the three kingdoms. The impression among politicans is that the speech has done much to consolidate the position of the Government, and unless events in Ireland upset them, their prospects for continuance in office were never so bright.

THE RACE COURSE IN JAPAN.

Waiting for the Commencement—Inspecting the Paddock—Running After Dark.

The Japanese are devoted admirers of the race horse. Between the stand and the race course is a wide turfed inclosure, at one end of which an excellent Japanese band is discoursing the music of the latest French operetta. Though it is yet only midday, while the racing is not to begin till 12:30, the stand and inclosure are fairly filled with Japs and foreigners of all sorts, and very queer do many of the former look, especially those who have been rash enough to assume foreign clothes, instead of sticking to their own comfortable and pretty dress. More especially it is to be regretted when a charming and graceful little Japanese lady abandons her own most picturesque attire for the fashions of Europe, in which she only looks insignificant and awkward.

While waiting for the commencement of the sport, let us go and inspect the paddock behind the stand. It is a grand, roomy space, surrounded with neat little stables, at the doors of which groups are congregated discussing the chances of the occupants. Of betting there is none. Selling lotteries are held at the hotels in Tokio or Yokohama two or three days before the races. The saddling bell has just rung. We are just in time to see H. M. the mikado arrive, sitting dressed in a dark uniform in his well turnedout landau, and surrounded by an escort of lancers, who look smart enough in their green and red uniforms. H. M. ascends to the royal box to the somewhat dismal strains of the Japanese national air. Close behind him arrives the one and only four-in-hand in Japan, owned by an eccentric American. The dark-painted drag and well matched team of dark ponies look smart enough. And now five ponies emerge from the paddock for the first race. Few of the Japanese ponies exceed fourteen and-a-half hands, but many of them are neat, well built animals, inclined to be weak behind, but with a fair enough turn of speed. They are nearly all ridden by Japanese jocks, who are very light and fair horsemen, but inclined to get excited and lose their heads, and flog their mounts long after the race is over.

It is not my intention to describe the racing, most of which would be considered very poor sport anywhere else, though some of the finishes were really good, one resulting in a dead heat. Suffice to say that a programme of nine races per diem was successfully carried to a conclusion in three days. A vast amount of time is always lost at the starts, and the last race each day is often run in the dark, so much so that I have seen a groom run into the middle of the course at the finish, holding a big lantern in his hand, in order that the judge might see which animal passed his box first. Wonderful to relate, the ponies did not seem to object to this proceeding in the least. —Yokohama Cor. London Field.

A Nursery for Young Authors.

The Waverly Magazine, the remarkably successful invention of the late Moses A. Dow, is one of the very few serial publications that have derived but little sustenance from advertisements. In some other respects the magazine was managed on a unique plan. Its ingenious proprietor had been in a position to observe one phase of human vanity—the desire to see one's writings in print. He had also learned that there were hosts of young people touched with a madness for writing, but whose productions found no market. To these rising Bulwers and Sigourneys The Waverly Magazine opened its doors, on conditions. The story or poem would be printed, provided the author would purchase a hundred copies, more or less, and also provided, of course, the matter was, for no reason, objectionable.

Without intention, so far as is known, The Waverly has served as a nursery for young authors, and there are a goodly number of writers of acknowledged merit whose maiden efforts were given to the public on its neatly printed pages. The financial success of the scheme being widely known, imitations were attempted, but in no case, we believe, with profit to the publishers. This fashion of requiring authors to contribute to the circulation of their works, it may be said in passing, is common enough in the music publishing trade, and is by no means unknown among the publishers of books.—Boston Transcript.

The Lazarus of Modern Times.

A few days ago I heard a sermon on "Lazarus," and I've been thinking about what sort of a time Lazarus would have in this day. Lazarus, "full of sores," lay at the gate of the rich man, who was "clothed in purple and fine linen and fared sumptuously every day." Lazarus wanted the crumbs that fell from the rich man's table. Now we are all taught that the rich man was very wicked and hard hearted, but suppose a beggar in the fix of poor old Lazarus should attempt to lie at the gate of an Antlantian, rich or poor, what would be done? The police would be telephoned for, and the Black Maria would carry Lazarus off the highways. The rich man would have to give his share toward the support of Lazarus, but Lazarus would have to take his support at the poorhouse. If he could get a goat wagon, or if he were an idiotic paralytic, or if he were even a little child, begging first and training for the penitiary, the wise authorities might let him alone, provided, of course, he would consent to "move on" occasionally.—Atlanta Constitution.

The Gulf Between Their Homes.

The time is at hand when, if labor and capital are to go hand in hand, the wide gulf that exists between their homes must be closed up. The man whose wife does her own work does not want a mansion to live in, nor does she want her home arranged for stair climbing. Large rooms are not their ambition, nor is frescoing or fancy woods their desire. The working man wants convenience, ventilation and outlook. He will take it in a cottage or a tenement with equal contentment, only that he gets what his simple necessities require and his peace of mind needs.

It is not a difficult problem, but it is an important one. As the Haverhill Laborer states it: "A man working for average wages, having an ordinary sized family, must hive them in a tenement block or some crowded quarter of the city, or he must pay from a third to a quarter of his entire earnings for a decent place to live in. The average amount paid for a cottage by the English workingman at home is from one-sixth to one-seventh of his income.—Boston Budget.

The Question of Poisonous Honey.

Professor Cook protests vigorously and justly against the notion that poisonous honey is occasionally produced. He says that all cases of supposed poisoning from eating honey may be explained on other grounds. Some people never can eat honey without injury. Any one eating it in large quantities without food is liable to colic. The fear of getting poisoned honey greatly detracts from the demand and peace of this delicacy. As the bee secrets the honey it could not take poisonous substance into its system without injury to itself, and that will not hurt the bee can not do serious damage to human beings.—Boston Budget.

What Puts Hate in a Woman's Heart.

"By the way, John," said a Philadelphia wife to her husband as he was leaving for the office in the morning, "I wish you would tell Mr. Stuckup to inform his wife that I won't be home this afternoon."

"Where are you going?"

"Oh, I'm not going out, but I hear that she has a sealskin sacque, and I don't want her parading it here before me. We have a prayer meeting at the church to-night, and I don't want to go there with my heart filled with hate."—Philadelphia Chronicle-Herald.

The artificial propagation of halibut is to be attempted by the United States fish commission.

All the present-day writers can do is to present matter in fresh dress, as subjects can not long ago.—Jud Lafagan.

DR. VANMONCISCAR,

THE WELL-KNOWN

SPECIALIST,

Proprietor & Consulting Physician of the Only Private Dispensary on the Pacific Coast, now permanently located at

132, 134, Third Street, Portland, Or.

DR. VANMONCISCAR has made the treatment of Private Diseases of Men a special study and practice for many years. Over 4000 cases treated yearly. Recent cases of private diseases cured in a short time. Ulcers, Humors and Blotches on Face or Body cured without giving Mercury or other Poisons. Mercury is the curse of the human race. Your children will suffer from its effects. Avoid it as you would avoid any deadly Drug, and use no more. These diseases are being cured at this Dispensary without Mercury.

DR. VANMONCISCAR

is a graduate of a regular Medical College, is well known over the United States and Canada by

Thousands of Old and Young Men he has Cured.

and it is a well known fact that for years he has confined himself to the study and treatment of Sexual and Chronic Diseases, thus giving him advantages he possess. Dr. Vanmoncisar addresses himself particularly to those who have already tried various physicians and remedies from whom they have received no benefit, and who, in fact, have done them more harm than good. Medicine, like all other sciences, is progressing, and every year shows proof of its advances. By a combination of remedies of great curative power, Dr. Vannon cisar has so arranged his treatment that it will afford not only immediate relief, but permanent cures.

YOUNG MEN

who are suffering from the effects of youthful indiscretions showing some of the following symptoms: Nervous and Physical Debility, Impotency, Unnatural Lost Manhood, Abuses of the system, Exhausted Vitality, Confusion of Ideas, Dull and Loss of Brilliancy in the Eye, Aversion to Society, Dizziness, Pimples on the Face, Loss of Energy, and Frequency of Urinating. You may be in the first stages, but remember you are fast approaching the last. Do not let false pride and shame modesty deter you from attending to your ailments. Many a bright and naturally gifted young man has sunk, with genius, perished his career has run on and on, until remorse racked his intellect, and finally death claimed its victim. Remember that "Procrastination is the thief of time." So let aside your pride, and consult one who thoroughly understands your ailment, and who will know your case, and find permanent relief for an ailment that has made many a drudgery and night hideous. Thousands upon thousands of men in good standing in the social world, of prominence in the world, are today suffering from the effects of their doings, the seeds of which were sown during moments for thoughtlessness. Young man turn and see upon thy companion or seek the mirror for proof to substantiate this fact. Oh! could he control the arm of Fate, or had he his life to live again, they would not appear to you more sincerely. Let your mind wander back to the much cherished counsels of a loving father, and remember what you are to-day. Though you may for the present fill your station in society, the time is as inevitable as fate when your brilliancy will, like a flash, depart, leaving you a shattered wreck—desolate, forgotten and lost; so embrace the opportunity and enjoy life and happiness longer. If you claim to be a man, act your part manly, be not cowardly yourself with the thought that Nature will help itself, for in doing so you not only fan the flame, but weak Nature and yourself. Remember, "Large oaks from little acorns grow;" "Little ills genuinely fatal diseases."

Middle-aged Men,

married or single, who are prematurely old" as a result of excesses or youthful follies, and who are troubled by the frequent retention of the bladder, often accompanied by a slight smarting or burning sensation, and finding a deposit of ropy sediment in the urine, and sometimes a small particle of albumen, or the color will rise be of a thin or milkish hue, and again changing to a dark or turbid appearance, causing severe debility and loss of vitality. Remember, this is the second stage of Seminal Weakness, to all such cases a perfect cure is guaranteed, and a radical restoration of the Genito-Urinary Organs. All interviews and letters are sacredly transcribed. Medicines packed so as not to offend, and sent by express, if full description of case is given; but one personal interview is all cases preferred. Patients treated by mail or monthly. Call during spare moments. Office hours: 9 a. m. to 6 p. m. Consultation free. M. W. F. S.

He says there is a sufficient quantity on each side of the track, taken at a low valuation, to pay for building the Canadian Pacific Railway twice over.

QUEBEC ELECTIONS.

The general elections for the province of Quebec took place to-day. The conflict was beyond doubt the keenest and severest that ever took place in that province. The issues were not provincial in their character; hence the interest taken in the result by the other provinces of the Dominion. Already six constituencies had rendered their verdict, three being favorable to the government; one independent, and two for the opposition, styled the nationalists. It is believed the government of Mr. Ross was sustained to-day, but by a greatly reduction majority. A full house contains 65 members. In the late assembly the strength of the opposition ranged from 12 to 17 these being the minimum and maximum figures. From private information received at THE TIMES office we are of the opinion that the nationalists will probably carry twenty-five as against forty by their opponents. If the government carry so large a percentage as this it is quite certain that there will be a general Dominion election next winter. An early session will be held, the supplies voted and then an appeal made to the country. Such at all events is the belief of those well posted in the moves made in the political chess board of Canada.

A MAMMOTH CONCERN.

Who has not heard of the far famed Joseph Hall agricultural and machine works, Oshawa, Ont.? This concern is a familiar one, well known to almost every Canadian, and to many Americans, as one of the most extensive manufacturing establishments in the Dominion. For fully a quarter of a century the Joseph Hall works have occupied a very prominent position as an agricultural implement manufactory sending its products to every corner of the Dominion, to Britain, the European continent, the Australasian colonies, Africa and other remote lands. Not only in implements but for its other products is this establishment famed. Its manufactures embrace such a wide range that it would be difficult to particularize any special lines. However, in no line has it so greatly excelled as in its portable engines, mills and Leffel turbine water wheels; in the production of which the Joseph Hall works are without a rival. Those of our readers, or any others in British Columbia, in want of any machinery, or anything in that line, will find it to their advantage to communicate with the manager of the Joseph Hall works, Oshawa, whose card appears in another column.

MOTHERS, UP AND AT HIM.

At the agricultural show in Victoria they give prizes for pretty children and fat pigs. The woman that would exhibit her baby at a cattle show is only—an animal.—New Westminster *Guardian*.

We are at a loss to comprehend why the editor of the *Guardian* should insult the many mothers who were present on that occasion with their babes by calling them animals. There is no accounting, however, for some men's taste. To our brother of the quill in the Royal City doubtless babes—the joy and the treasure of any household—are but as sour grapes. That antediluvian editor belongs to the order called bachelors, who neither know of nor do they care any thing about, babes. It is well for him that the gulf rolls between himself and many a Victorian mother, who would speedily resent this wanting insult.

THE EASTERN EXCURSION.

The "civic" excursion party left for the east this morning, Mayor Fell being the sole representative of the city fathers. Councillor Higgins will depart for Toronto and other eastern points in a day or two. Accompanying Mayor Fell were Mr. J. O. Graham, Mrs. Graham, Mr. and Mrs. Imrie, Mr. J. W. Booth, A. F. Van DeVanter, P. J. A. Tiedeman, Mr. and Mrs. McKay, Mr. Hall, and eleven others from Tacoma and Seattle points. Captain Irving goes to Montreal. The lateness of the season deterred many of our citizens, who have expressed a strong desire to revisit the east, from going. Mayor Fell will remain at Banff for a day or two, and then proceed to Winnipeg and possibly to Ontario and Quebec, returning about the 1st proximo.

SIEWERD'S COMEDY CO.

For the benefit of ladies and children the above company will give a matinee performance in the Victoria theatre on Saturday afternoon, when Humpty Dumpty will be presented, followed by specialties, and a farce entitled "Blue Glass." On Saturday evening the performance will consist of specialties by the full company and a three act drama entitled "Caution." It is the intention of the management, provided they receive sufficient encouragement from the amusement public, to give Saturday matinee and evening performances at the Victoria regularly every week. Regular prices, 75, 50 and 25 cts.

CORSETS, CORSETS, CORSETS.

We make corsets a specialty. Having rarely less than 500 pairs in stock we can at all times offer the largest variety to be found in the city. Amongst those lately received are the "COUPON," a remarkably strong, well made, model shaped Corset, at a very low price, guaranteed for a twelvemonth; and the "INSURANCE," the the greatest novelty in Corsets yet introduced. WM. WILSON & CO.
*2w CITY HOUSE.

SPECIAL MEETING.

After the break up of the Council last night, five councillors signed a requisition to City Clerk Robinson to call a special meeting on Friday evening next for the transaction of unfinished business. Mayor Fell will be absent, and the deadlock thereby, it is hoped, terminated, a street overseer will be appointed. The meeting will be held at the usual hour.

INDIAN SHOW.

At the agricultural and industrial show, to be held at Cowichan Landing on the 27th and 28th inst., under the auspices of the Cowichan Agency, only British Columbia Indians will be allowed to compete for prizes. The exhibits will embrace grain, animals, poultry and the handiwork of the natives.

THE DOMESTIC

Took the first and only prize awarded to sewing machines in all points of merit by competent judges at the Provincial Exhibition Oct. 9th. Special prizes for work done on the Domestic; best plain sewing; best chenille embroidery; best arrasene embroidery; best etching. T. W. Fletcher, agent.

EXCURSION RETURNS TO PORT MOODY.

Until further notice return tickets from Victoria to Port Moody and Vancouver will be sold for Sundays trip of the Princess Louise at one fare—$3.50. Tickets on sale by D. R. MUNRO, passenger agent, C. P. N. Co. ONLY. *

INDIAN CASHMERES.

NANAIMO NOTES.

(From the *Free Press*.)

We understand that Messrs. Pimbury, Halleck and Stirlan, of the Nanaimo Water Works company, have effected arrangements to bring in water from Chase River to supply the City of Nanaimo. It is expected that the work will be commenced at an early date, and pushed forward to a speedy completion.

The Nanaimo Equitable Pioneer Society is in a flourishing condition. At the anniversary celebration, Mr. G. Campbell, President, read the following statement: Amount of sales for the year $30,257.75, an increase of $13,687.23 over last year. The net profits for the year were $4,020, an increase of $2,368. Amount of goods purchased during the year, $27,078.72. Added to membership 53, making the total membership 148.

The thirteenth annual meeting of C. D. A. O. of F. was held in that city on Friday, Oct. 8. The following officers were elected for the ensuing term: W. G. Cameron, D. C. R.; R. J. Wenborn, D. S. C. R.; E. J. Salmon, D. T.; W. Gregory, D. S. The order is in a very good position and is progressing. Total membership in the district 298, an increase of 18 in the past year. Only two deaths in 12 months. Total assets $16,000. Average sickness 4.25 days per member.

On Saturday last Mr. Peter Lurie, Preventive Officer, overhauled a canoe at Saanich and found therein two double sets of harness, which the Indians had purchased on Puget Sound and were attempting to bring in free of duty. The harness was promptly confiscated and forwarded to the head office in this city. The B. C. retail value of the two sets of harness is about $80. There is but very little doubt that the Indians do a large amount of smuggling.

THE EAST COAST ROUTE.

The Amelia will leave for Nanaimo on Friday morning, as usual, and in future will make two trips per week to all east coast points. The days of departure and arrival have not yet been decided upon. The *Free Press* says the arrangement between the post office department and the People's Navigation Co. calls for a weekly mail service with Nanaimo and way ports from October 1st to April 1st and twice a week during the rest of the year. On the off-days, the steamer will make trips as circumstances warrant.

HANDSOME DIPLOMAS.

The directors of the Provincial Agricultural Society have presented special diplomas to Pendray & Co., for the best and largest display of soap; Nicholles & Renouf for the finest display of agricultural implements, and Victoria Band for best music. The diplomas are handsomely printed on white silk in gold and carmine, and conveniently mounted—Munro Miller being the artist. As mementoes of the exhibition they will be highly prized by the parties receiving them.

CONSIGNEES.

THE OLD, OLD STORY.

We have been informed by the Associated press that on account of heavy storms east of the mountains there is very little telegraphic report to-day. We could have guessed as much, but might not have attributed it to the right cause.

—There was no mail from the east last night in consequence of a block on the railway.

—Jack Booth, the well known pitcher of the Seattle Reds, employee on the C. & P. S. R. R., broke his leg last Tuesday.

—The C. P. R. Company are negotiating for an entrance into the New York harbor.

—First annual session of the Grand Lodge of Good Templars of B. C. opens in Nanaimo to-day. Representatives will be in attendance from the several lodges of the province.

—Mr. John Brown, in attempting to land from a sail boat yesterday evening, fell into the water, and might have drowned but for the prompt action of his friends in pulling him out.

—It is reported that six new steamers to be placed by the Canadian Pacific Railway Company on the Vancouver-Hongkong route are being pushed to completion rapidly at the shipyards on the Clyde.

—The first prize apple at one of the recent exhibitions is on view in Mr. John Kurtz's cigar store. Its excellence lies in the flavor rather than in the size, although both are remarkable, and a peculiarity about it is that it was the only one grown this season on the tree, which in former years produced more tons than all the others in the garden.

—A party of New York sportsmen piloted by Mr. J. Fannin, curator of the provincial museum, have returned from the Similkameen where they spent a month hunting the British Columbia chamois. They secured a number of bighorns and deer, and the party are now in the mountains north of Burrard Inlet stalking mountain goat.

—Our excessively sanctimonious friend of the *Columbian* is very sorry to find THE TIMES approving Sunday steamboat excursions. THE TIMES certainly complimented the C. P. N. Co. for having made a move in the right direction, but the act we approve of was the reduction of fares rather than the day selected. We do not necessarily endorse Sunday excursions, because we express the hope that hypocritical hypocrites may never do worse on the Seventh day than participate in one.

Sales, entries and selections of public lands throughout the United States for the fiscal year ended June 30 last reached a total of 20,991,967 acres, and of Indian lands 1,132,596 acres more. The increase over the preceding year was 2,129,050 acres.

Advices from Fort Belknap contain intelligence that Blood Indians on the other side of the line are making active preparations for a raid upon the Gros Ventres of Montana. Military authorities on both sides of the line have taken steps to prevent a war.
